

imagineNATIVE Film + Media Arts Festival 2010

Once again, the AbTeC team submitted work into the imagineNATIVE Film + Media Arts Festival New Media category. And, yet again, we walked away with the "Best New Media" prize! This time for our video game mod project, along side the students of [Kahnawake Survival School](#) entitled "Otsi:!! Rise of the Kanien'kehá:ka Legends".

Seen here are co-directors Skawennati Fragnito and Jason E. Lewis accepting the award at the closing awards ceremony. For more information of the project, please visit the website <http://otsi.abtec.org/>.
